VOL. XXI.

A USELESS OFFICE

IS CREATED BY PUBLIC PRINTER PALMER FOR THE BENEFIT OF A LATE RIVAL

The Commission of Dr. Arnold as Revenue Collector of Georgia Still Held Up in the Treasury Department.

WASHINGTON, May 16.—[Special.]—Public Printer Palmer has discovered a scheme that will materially assist the administration in doing away with the surplus problem, namely: by disorganizing it. Mr. Palmer's scheme is to create an entirely new office, which has hitherto not existed, and which, he calls, "superintendent of printing"—a position that must, in the nature of things, be more or less a sinecure. The public printer gets a bulk appropriation, and the only restriction in the matter of salary is that relating to work done by the printer or by the hour. The salaries of the most responsible employees are fixed at the discretion of the public printer. Heretofore the chief officer under the public printer has been the foreman of printing, who received a salary of \$2,000. Each separate department has a foreman and the duties of the general foreman were merely supervisory. Now Mr. Palmer steps in and creates an entirely new office—one that is not only unnecessary, but useless, and attaches to the position a salary of \$2,500 per annum. The office of foreman of printing is continued, and there is no more need of both than to have two public printers. The good position in the office has, by Mr. Palmer, been assigned to the late candidate for public printer. A big deal has evidently been made, and the old baronage who hung on the office during previous republican administrations are now the closest advisers of Mr. Palmer in his reorganization of the office. It looks as though one can't tell what may be the outcome of it.

DR. ARNOLD'S SUSPENSE.

The case of Dr. Arnold for collector of internal revenue is still hung up, and the treasury officials are examining into his case with great diligence. It looks as though one can't tell what may be the outcome of it.

APPOINTMENTS YESTERDAY.

Ministers to Turkey and Denmark—Several Consuls.

WASHINGTON, May 16.—The president made the following appointments this afternoon: Solomon Hirsch, of Oregon, to be envoy extraordinary and minister plenipotentiary of the United States to Turkey; Henry W. Severance, of California, to be consul general of the United States at Honolulu; John Jarrett, of Pennsylvania, to be consul of the United States at Birmingham; Thomas H. Sherman, of the District of Columbia, to be consul of the United States at Liverpool; John W. Douglas and L. C. Hine, both of Washington, to be commissioners of the District of Columbia; The New Offices.

DEATH OF ALLEN THORN-DYKE RICE

The Minister of Russia Passes Away Rather Suddenly.

New York, May 16.—Allen Thorn-dyke Rice, the newly appointed minister to Russia, died suddenly this morning at the Fifth-avenue hotel, where he was a guest. Mr. Rice had been suffering from throat affection for a few days past, but was not supposed to be in any danger. He intended to sail for Europe yesterday on the Italian liner steamer City of Paris, but was compelled to delay his departure, owing to his sickness.

Mr. Rice died at half-past three o'clock this morning. There were with him at the time of his death James Sargent, his valet of twenty years' standing; Henry Crisp, an experienced nurse; Dr. Goldthwaite, of the Fifth-avenue hotel; and Dr. Fuller, who had been in attendance upon him for some time past. Dr. Fuller gives the following history of the case: Mr. Rice has been ill during the entire spring, having been generally

RUN DOWN BY OVERWORK.

In preparing for abroad. He took to his bed three or four days, suffering from tonsillitis. His tonsils had formerly given him considerable trouble and had been clipped. There was a certain amount of ulceration apparent with symptoms of quinsy. The case has not been considered dangerous, however, even up to 11 o'clock last night. Monday was his worst day. On Tuesday night the quinsy became worse, and this morning he felt a great deal of relief. The patient's temperature fell and his condition appeared to be favorable. He had also a good appetite.

Dr. Fuller adds that Mr. Rice's nurse was an experienced one and all was done for the sick man that was possible. The nurse says that at 1 o'clock this morning when he and the valet were with him Mr. Rice expectorated some phlegm, or pus, felt greatly relieved and went to sleep. About 2 o'clock the nurse endeavored to awake him to allow more phlegm to be discharged, but

HE WAS UNABLE TO AWAKE HIM.

Sergeant, the valet, made all haste to Dr. Fuller, and Dr. Goldthwaite was also summoned. The latter reached the sickroom first and tried in vain to awaken the patient. When Dr. Fuller arrived they united their efforts, but to no avail. Mr. Rice died within ten minutes later. Dr. Fuller says the glottis swelled suddenly and shut off the breath. Such cases are of very rare occurrence, and this instance was unique, for, though the precaution had been taken, Mr. Rice's lungs had partly been sent abroad. Dr. Fuller expected he would be able to sail on Saturday.

FOUNDED AT SEA.

WOODROW AGAIN.

HE IS PUT IN NOMINATION AS MODERATOR, WHICH CAUSES A LIVELY DISCUSSION

In the Southern General Assembly of Presbyterians, in Session at Chattanooga, and the Doctor Withdraws.

CHATTANOOGA, May 16.—The southern general assembly of the Presbyterian church met in this city, the session being formally opened by a sermon preached by Rev. Dr. Bullock, of Washington, D. C., the retiring moderator. At the close of the sermon, which was a powerful one, a business assemblage was called.

The first order of business was announced to be the election of a moderator. The following were named by the assembly: Rev. Dr. J. G. Hill, of Fayetteville, N. C.; Rev. Dr. G. D. Armstrong, of Norfolk, Va.; and the Rev. Dr. J. G. Woodrow, of Columbia, S. C.

On motion the election was postponed until the afternoon session, which convened at 3 o'clock.

The reassembling in the afternoon, Mr. James Lyons, commissioner to the assembly from Richmond, Va., arose and objected to the nomination of Mr. Woodrow, giving as a reason that he had not submitted to the judgment of the last general assembly with regard to the theory of evolution.

Mr. Lyons resumed the floor and read several articles from Dr. Woodrow's paper, all of which seemed to be communications, but for which he asserted that Dr. Woodrow was responsible as editor. These articles were rather severe on the conduct of the last general assembly.

When Mr. Lyons had taken his seat Dr. Woodrow arose and withdrew his name as a candidate for moderator, and repelled the charge of insubordination. He said he was under an obligation to submit, and did submit to the judgment of the assembly so far as the theory of evolution was concerned, but that the Word of God required him. "But," said he, "every man has a right to judge for himself."

Whether a decision is in agreement with the constitution of the church, and the word of God. As to the judgment of the assembly, he believed it to be inconsistent with the constitution of the church, and he was not obliged to be loyal to anything, whatever, inconsistent with that constitution. He returned to his seat. He returned to his seat. He returned to his seat.

THE DYING BISHOP.

MURDER IN A COURTROOM.

Jim Turner, a Ward Politician, Murders Tom Holton.

NASHVILLE, Tenn., May 16.—[Special.]—Tom Holton, figured today as the center of a terrible crime.

The keen report of a pistol shot was heard in Justice Brown's office, and in an incredibly short time the street was blocked with excited people, who excitedly passed the report from one to another. "Jim Turner has killed Tom Holton." So suddenly and unexpectedly was the deed committed that no one had an opportunity to avert it or interfere. Turner and Holton had a law suit to be tried at ten o'clock, but Judge Quarles, Turner's lawyer, was not present, having been called to the criminal court. He had been in the office, however, a few minutes previous, and Justice Brown volunteered to go himself to the courtroom and see Judge Quarles. This he did, and returned a half hour later with the information that he would

CONTINUE THE CASE.

since Turner's lawyers would be unable, on account of other engagements, to be present. Turner secured E. T. Holman, and came into the office with the announcement that he had secured another lawyer, and was ready for trial, but was told by Justice Brown that the case had been continued and that he was not to be there at ten o'clock. Turner's lawyer was not there at the hour when the case was called.

Yes he was here," replied Turner, betraying anger and excitement.

"He was not here at 10 o'clock," said Holton, very positively, and this elicited from Turner the retort:

Holton faded a little, but with remarkable coolness, said:

"You are a liar."

TURNER WHIPPED FROM HIS BOSSOM A SMITH & WESSON double acting revolver, like lightning as the muzzle flashed Holton sank limp, and apparently lifeless, to the floor. Justice Brown leaped from behind his desk and grabbed Turner. As speedily as possible the wounded man was placed on a stretcher, and removed to his home on South Cherry street. He was able to talk, but revealed great weakness, and died at three this afternoon. Turner was seen at the police station, and asked whether he regretted the deed. He said he did not. "Nothing at present," he said, "except that I shot him in self-defense."

The grand jury not being in session, Turner was committed to the city jail at 1 o'clock this afternoon by Justice A. B. Brown, without the privilege of giving bond. Turner has long been a prominent ward politician.

THEIR HOMES IN ASHES

CANADIANS CAMPED OUT IN THE OPEN FIELDS.

ONE OF QUEBEC'S SUBURBS BURNED

Five Hundred Houses Destroyed—The Fire Causes Only Lack of Material to Work Upon—The Loss of Life.

QUEBEC, May 16.—A disastrous fire broke out early this morning in Saint-Sauveur, in the house of Mrs. McCann, on Vallier street, and spread with great rapidity through the wooden district which surrounds it. The streets burned are portions of Vallier, Cheneil, St. Peter and Ste. Marie. Insurance companies interested are the North British and Mercantile, London and Lancashire, Guardian, Agricultural, of Watertown, and Northern. The houses so far made out in prospect may be \$150,000.

At 3 o'clock it was impossible to guess the limit of the fire, and the people were in dismay at the rapidity with which the fire jumped from one wooden building to another. Local arrangements for quenching the fire were defective, and the fire brigade was called out for and were quickly on the spot, but their efforts were crippled for want of water.

OVER A HUNDRED HOUSES DESTROYED.

Battery was called out, and rendered valuable assistance in fighting the flames. Over one hundred wooden houses have been destroyed. A good deal of distress will be caused by the destruction of a large number of wooden shanties, on which there is no insurance.

At 7 o'clock the fire was under control, having almost burned itself out. While the military were preparing to blow up some of the houses to clear the fire, a premature explosion took place in one of the houses, killing Major Short and Sergeant Wallack, of B battery. Both were buried in the ruins. It was about 10 o'clock the body of Major Short had not been recovered. The body of Sergeant Wallack was found near the door of the house, dreadfully mangled.

CHECKING THE FLAMES.

THE FIRE IS STILL BURNING AND NO HOPE IS ENTERTAINED OF STOPPING IT UNTIL THE OPEN COUNTRY IS REACHED.

THE FIRE IS STILL BURNING AND NO HOPE IS ENTERTAINED OF STOPPING IT UNTIL THE OPEN COUNTRY IS REACHED.

NO JUTE BAGGING.

The National Alliance Resolves on Cotton Bagging.

BIRMINGHAM, Ala., May 16.—[Special.]—The southern farmers, at least every one belonging to any of their numerous organizations, is now pledged to use no jute bagging next season. A resolution to that effect was reported to the convention at a late hour last night and adopted, but today, at the request of the representative of the bagging trust, the question was reopened. The trust was anxious to make terms, but not enter into a contract for the entire season. The original resolution, pledging the farmers to use only cotton bagging, was called up again and unanimously adopted. It was further resolved that the state alliances in each cotton growing state, would erect factories for the manufacture of the cotton bagging. The convention is still in session. All the sessions of the convention are held with closed doors.

WILLIAM WALKER KILLED.

By His Bondsman in an Effort to Get Him to Court.

QUINCY, Mo., May 16.—[Special.]—William Walker, colored, was convicted today of hog stealing. Walker was killed tonight by John Hiers, his bondsman. When Hiers heard that Walker had left town he requested the sheriff to arrest him. Sheriff Hiers, who was deputized John Hiers to assist him, Walker was found about two miles from town, near home. He resisted arrest, Sheriff Hiers says, and the shot him in the back. The ball entered the back where the splendorous cross, and lodged in front of his body just beneath the skin.

THE CONTRACTOR GOES NORTH FOR RAILROADS.

COLUMBUS, Ga., May 16.—[Special.]—Mr. W. B. Lowe, of the Chattanooga Bridge Company, which has the contract for the construction of the Columbus Southern railroad, left for New York today to buy rails. He will make the direct shipment as soon as the rails are laid. The work will begin as soon as it arrives.

Chancellor Boggs is expected to arrive here tomorrow. The alumni have arranged for his entertainment. He will preach at the First Presbyterian church on Sunday.

THE CLERK OF THE CITY HAD A MEETING TO-DAY AT WHICH HE TALKED OF CLOSING THE STREETS AT SIX O'CLOCK DURING THE SUMMER MONTHS.

THE CASE OF CHARLES RUNDLE, THE DISCHARGED MANAGER OF THE SOUTHERN RAILROAD, WHO IS CHARGED WITH BEING A DEFRAUDER, WILL BE TAKEN UP IN THE SUPERIOR COURT TO-MORROW.

BRADLIGH'S MOTION FAILS.

LONDON, May 16.—In the house of commons this morning, Bradligh's motion opposing the government's proposal to commute perpetual pensions was rejected. Bradligh urged the abolition of pensions having an unworthy origin like those of the dukes of Grafton and Richmond.

Mr. Hanbury, (conservative), in seconding the motion insisted that a distinction ought to be drawn between pensions arising from public service and those from private service. It was monstrous that the families of Nelson and Neil Gwynne should receive the same treatment. The effect of the division was to enable all perpetual pensioners to commute at twenty-seven years purchase.

THE GEORGIA UNIFORM KNIGHTS.

AUGUSTA, Ga., May 16.—[Special.]—The grand lodge of the uniform ranks of the Knights of Pythias, of the state of Georgia, will be held in Augusta next Tuesday, Wednesday and Thursday. The local lodges are making elaborate preparations for the reception of their brother knights.

PIGOT'S LIFE INSURANCE POLICY.

LONDON, May 16.—It is stated that Richard Pigot, the forger of the Parnell letter, and his life insured for 1,000 pounds in the English and Scottish Life office. The fact that he committed suicide does not affect the policy, which is said to have been in existence over five years.

A NEW ALABAMA TOWN.

STEVENS, Ala., May 16.—The sale of 16 lots at Stevens, Ala., yesterday and today, amount to \$48,535. The number of lots sold was 101. Stevens is on the Alabama and Charleston railroad, thirty-eight miles south of Chattanooga and near the mouth of the Sequatchie valley. The town was laid off in April.

DR. CROHN HEARD FROM.

CHICAGO, May 16.—Chief of Police Hubbard today received a telegram from John G. Cummings, chief of police at St. Catherine, Ont., saying that Dr. Crohn was seen in Chicago, and that he was in the city and stating that this information could be relied upon as correct.

THE CHINESE DAMAGES.

SHANGHAI, May 16.—The claims for damages arising out of the Chefoo riots have been settled. The English and American flags have been rehoisted, the Chinese troops saluting them.

HAS CONFIDENCE IN IT.

PARIS, May 16.—The capital of the new Comptoir Desepoite, which is 40,000,000 francs, has been subscribed for by shareholders in the old concern.

THE CAROLINA COLORED FIGHTERS.

AUGUSTA, Ga., May 16.—[Special.]—The interstate conflict between North and South Carolina ended today in an overwhelming victory for South Carolina. The main fight was won by only one fight, South Carolina winning six and North Carolina five fights out of the eleven. In the eleven color fights which the English and American flags have been rehoisted, the Chinese troops saluting them.

THE POOL ROOMS MUST CLOSE.

BIRMINGHAM, Ala., May 16.—[Special.]—The chief of police this morning, by order of the board of aldermen, has notified the proprietors of all the pool rooms in the city that if they were open for business tomorrow they would be arrested. The city authorities will not agree to a test of the law, but have decided to close the rooms pending a decision on the constitutionality of the bill. The pool rooms all closed tonight.

BROOKLYN RACES.

BROOKLYN, May 16.—Second day of the Brooklyn jockey club meeting at Gravesend. First race, purse \$1,000, all ages, six furlongs, Trotter won, Fordham second, Eolian third, Time, 1:28. Second race, handicap sweepstakes, \$1,000 added, mile, Trotter won, Fordham second, Eolian third, Time, 1:32. Third race, Myrtle stakes, for three-year-olds and upwards, \$1,000 added, selling, mile, Trotter won, Fordham second, Eolian third, Time, 1:28. Fourth race, \$1,000 added, mile and a half, Trotter won, Fordham second, Eolian third, Time, 1:45. Fifth race, \$1,000 added, mile and a half, Trotter won, Fordham second, Eolian third, Time, 1:45. Sixth race, \$1,000 added, mile and a half, Trotter won, Fordham second, Eolian third, Time, 1:45. Seventh race, \$1,000 added, mile and a half, Trotter won, Fordham second, Eolian third, Time, 1:45. Eighth race, \$1,000 added, mile and a half, Trotter won, Fordham second, Eolian third, Time, 1:45. Ninth race, \$1,000 added, mile and a half, Trotter won, Fordham second, Eolian third, Time, 1:45. Tenth race, \$1,000 added, mile and a half, Trotter won, Fordham second, Eolian third, Time, 1:45.

LOUISVILLE RACES.

LOUISVILLE, May 16.—Big attendance and good racing, was the track a little away. First race, Louisville hotel, handicap sweepstakes, all ages, one mile, Comedy won, Marchena second, Harry Glenn third, Time, 1:45. Second race, Kentucky Oaks, for three-year-old fillies, \$1,200 added, mile and a half, Javel Ban won, Brandelette second, Hattie third, Time, 1:45. Third race, \$1,000 added, mile and a half, Javel Ban won, Brandelette second, Hattie third, Time, 1:45. Fourth race, \$1,000 added, mile and a half, Javel Ban won, Brandelette second, Hattie third, Time, 1:45. Fifth race, \$1,000 added, mile and a half, Javel Ban won, Brandelette second, Hattie third, Time, 1:45. Sixth race, \$1,000 added, mile and a half, Javel Ban won, Brandelette second, Hattie third, Time, 1:45. Seventh race, \$1,000 added, mile and a half, Javel Ban won, Brandelette second, Hattie third, Time, 1:45. Eighth race, \$1,000 added, mile and a half, Javel Ban won, Brandelette second, Hattie third, Time, 1:45. Ninth race, \$1,000 added, mile and a half, Javel Ban won, Brandelette second, Hattie third, Time, 1:45. Tenth race, \$1,000 added, mile and a half, Javel Ban won, Brandelette second, Hattie third, Time, 1:45.

THE ENGLA ARRIVES.

HAMBOURG, May 16.—The steamer Rugia, on which she broke out among cotton in her effort to hold on May 16, while on voyage from New York, arrived here today.

## THE SUNDAY CONSTITUTION

SENT TO ANY ADDRESS:  
 ATLANTA, GA., MAY 16, 1889.

## The Growth of Southern Georgia.

To one acquainted with the country the growth and prosperity of southern Georgia is something marvellous.

At the close of the war that section of country was almost a wilderness. The law of New York state, which required that electricity shall take the place of the gallows. The time for his death is set for the week commencing June 24th. In the words of the sentence he will "suffer the death punishment by being executed by electricity."

The stock business began to fall. The pastures were insufficient to support large flocks of sheep and cattle, the winters grew harder, and men began to realize that they must turn their attention to something else.

The small farmers began to adopt the intensive method, and by careful tillage, and the use of fertilizers, they brought the land up to a high state of cultivation. The timber and turpentine interests paid well for awhile, and are still paying. But the salvation of the country was its fine climate, its health and its pure water, and its great adaptability to fruit raising and vegetable growing.

And today the lands that were not valued at more than twenty-five cents an acre, at the close of the war, are worth five and ten dollars an acre. The country looks like a big flower garden, all along the line of railroads that have been constructed, and there is not a day in the year that the householder cannot go out and gather something in the way of fruits and vegetables for the table. Finer breeds of stock have been introduced, and the fat beef and mutton, the rich milk and butter, and a hundred other things of the very choicest variety, are to be had in that blessed land.

And it is filled with a happy, prosperous and progressive people, who have turned the unlovely, barren wilderness into a favored region that blooms like the rose.

## Government Junk.

The Chicago Times calls attention to the fact that Congress and the government have gone into the printing business on a very large scale. There is nothing too unprintable for the government to print. A few years ago, when Ignatius Donnelly wrote a lot of it in rhyme it was circulated at the expense of the people. It was printed in the Congressional Record, and went forth as a part of the proceedings of Congress.

Taking everything into consideration, a greater fraud was never perpetrated on the country, except the continuous printing of useless documents by the departments at Washington. Nobody wants them, nobody reads them, nobody cares for them. THE CONSTITUTION, to give an instance, gets tons of printed matter yearly that it throws away. It is of no interest whatever, and comes after volume after volume week after week, with no excuse but the big one that the government authorizes it. It prints goes on by the ton, and the people have to pay for it. The printing goes on, and there is nobody to call a halt. Thousands upon thousands of dollars are expended with no end in view, except that foolish congressmen who believe that a printed volume sent to a constituent places him under some sort of obligation.

Our own impression is that a person who would vote for a congressman who had inflicted these deadly volumes and publications on him is a very forgetful citizen indeed. THE CONSTITUTION has received them by the hundred, and continues to receive them, and we are not angry over the matter, for the simple reason that all the government printing goes at once to the junk dealer.

## Curiosities of Crime.

One of the most interesting documents of the year is the report of the New York police commissioners. During the year—suppose it ought to be called the police year—58,049 arrests were made. Of these 64,094 were males, and 19,955 were females. There were fewer Chinese arrested. The increase in arrests of foreigners was among Germans, Italians and Russians. Of these between twenty and thirty years of age there were nearly 32,000, but under 8,300 were over thirty years of age.

Of the total number arrested 50,000 and over were unmarried, and more than 4,000 had no education. The arrests included 97, 53 artists, 13 actresses, 1 author, 8,817 bartenders, 60 boarding house keepers, 118 book keepers, 1 ball player, 1 ballet girl, 18 cashiers, 6 chaplains, 6 clergymen, 88 editors and reporters, 35 lawyers, 3 interpreters, 11 letter carriers, 95 lawyers, 12 musicians, 22 managers, 2 models, 1 manure, 7 organ grinders, 1,113 printers, 22 policemen, 62 physicians, 11 pilots, 1 page, 15 private detectives, 1 preacher, 6 professors, 1 poet, 1 rabbi, 15 soldiers, 22 students, 6 singers, 13 stenographers, 31 undertakers, 1 ventriloquist and 8 vocalists. No occupation was claimed by 10,069.

The Boston Globe, which has made a synopsis of the arrests in New York city, very properly remarks:

It is noticeable, too, that of the total arrests only 35 are set down as having no education. This showing is not really so encouraging as it appears. American idea that ignorance is the most fruitful mother of crime. When it is remembered that the educated scamp is really more able to elude arrest than the ignorant one it becomes extremely doubtful whether ignorance is half so great a cause of crime as education, where the tendency to violence is organic. Our interesting colony in Canada is largely made up of gentlemen of fine education and culture. Those who contend that more education is sure to guarantee of good citizenship would seem to find support in these figures.

We are sorry to notice the arrest of 83 editors, but presume they were led astray by the 53 lawyers. Neither do we venture any extended comments on the 23 physicians, as it is not noticeable that they were "quacks" or not. It is noticeable that the seven organ grinders are not counted in with the 117 musicians. Presumably they might at least have been numbered with the artists, and a grave professional affront have been thus avoided. This

official carelessness in jumbling together nice class distinctions probably accounts for the fact that 19,955 of the persons arrested claimed no occupation at all, and thus left themselves open to the suspicion of being loafers.

This is indeed a very queer lot of statistics, but the probability is that the criminal statistics of other cities would show quite a different result, but in the end it would all average up. It is impossible to imagine what the 83 editors and reporters were arrested for, but the probability is that they were taken up as examples of true goodness, in order to show ordinary people that the law is no respecter of persons.

We need not suppose, however, that education is an incentive to crime, any more than that ignorance is a preventive. Those who desire to sound the springs of human motive will have to go back to the Bible.

## Execution by Electricity.

William Kemmler, convicted of murder, is the first to be executed under the new law of New York state, which requires that electricity shall take the place of the gallows. The time for his death is set for the week commencing June 24th. In the words of the sentence he will "suffer the death punishment by being executed by electricity."

The experiment will be watched with considerable interest, and if it is demonstrated that the advantages of the new method are as much as make it preferable, from a standpoint of humanity, to the present system of execution, it is probable that it will not be long before it will supersede the gallows.

Prominent scientists say that the electrical current cannot always be relied on to produce instant death, and others claim that it is not improbable that the body of the criminal will be frequently mutilated after having undergone shocks such as are necessary to be applied for the purpose of producing immediate death. Frequent reports of horrible scenes enacted on the scaffold, caused by bungling executions, have produced the impression that hanging is not always as efficient a manner of prompt execution as it might be. Capital punishment does not call for torture, and there are certainly frequent displays of the most revolting sort of torture on the gallows.

But the poor fellow who is to be made the subject of the first legal execution by electricity will probably undergo as much torture while being prepared to receive the death current as if he suffered the agony of a cruelly performed execution on the scaffold. The wires are to be carefully adjusted to his head and feet, his hands are to be pinioned, and while seated in a chair the fatal shock is to be driven through him. If the experiment is successful he will feel no pain nor suffer the slightest physical discomfort, for in the fraction of a second the dreadful current will do its work.

Truly the progress in electrical development is wonderful. To what new purposes will it next be applied?

## Saving the Fruit Crop.

Georgia will grow \$10,000,000 worth of fruit this year.

Will she save it? The trees and vines are bending low with their blushing and juicy loads. The patches are signs to behold. In every fruit and in every section, nature seems to have done her very best.

In Connecticut every pound and every bushel of this immense crop would be saved and utilized. What could not be sold in the market would be dried, evaporated, pressed, preserved or canned, and the rinds and peelings jellied and pickled.

What will we do with it in Georgia? Shall we have this year—when the small economies are being preached in every sanctuary and lodge—the usual enormous waste fruits, that rot in such lavish contempt that they are not even tumbled to the hogs or stock?

Let us hope that the crop will be not only harvested but sold or saved. No better peaches or grapes or melons grow on earth than grow in Georgia. They should be wisely marketed, and the surplus canned or pressed or preserved. We cannot make a better start towards the restoration of agricultural prosperity than to husband the almost priceless treasures that bountiful nature hangs on our trees and vines.

## The Burglar Nuisance.

There seems to be an epidemic of burglary prevailing throughout the country, and particularly in the north. Incident thereto several tragedies have been reported of late, the most shocking of which is the recent killing of City Editor James Bebe Smith, of the Springfield, Mass., Republican, who was shot and instantly killed by his brother-in-law who mistook him for a burglar.

The circumstances surrounding the death of Mr. Smith are particularly tragic, and the burglary nuisance is the direct cause of the misfortune. At an early hour in the morning young Mr. Sturtevant, Mr. Smith's brother, was awakened by a noise in the house. He arose and, seeing traces of intruders, armed himself with a shotgun and proceeded on his investigation. The servants of the house saw the burglar and screamed, and Mr. Smith, being awakened by the unusual commotion, hastened to see what was the matter. Accompanied by his wife he entered the hallway; there was a flash, a report, and poor Smith fell dead in his doorway, having been killed by his brother-in-law who mistook him for the burglar whom he knew to be in the house.

Only a few days ago an occurrence very similar to this was reported, and of late the papers have been unusually full of the midnight exploits of thieves.

After all the North Carolina method of dealing with thieves has its advantages. The laws of that state make burglary a hanging crime, if a jury is inclined to inflict such severe punishment, and only a few days ago a thief convicted of robbery, under circumstances which made the offense particularly heinous, paid the penalty for the crime on the gallows.

Nothing is so dangerous to a community as the knowledge to thieves and plunderers that their apprehension and conviction will amount to nothing more than a light punishment. Some criminals are so hardened that they do not mind a brief term in the changing or penitentiary, and to such men the probability of a few years service in stripes would not stand in the way, when an inviting opportunity is offered for plunder.

They are willing to take the chance where the alternative of a successful raid is, at most, punishment so light that they do not look upon it as a very serious matter.

If a few professional house-breakers were hung or sentenced to the penitentiary for twenty or thirty years or so, and the others knew that a similar fate was in store for them when they fell in the hands of the law,

## THEIR ANNUAL PICNIC.

## SUNDAY SCHOOL CHILDREN ENJOY A DAY IN THE WOODS.

Scene of the Association at Piedmont Park. The Exercises and the Contest—A Platform Falls, but Nobody Really Hurt—Notes of the Day.

A day in the woods. And a glorious day it was for the little ones who went out to Piedmont park yesterday.

It was the twenty-third annual celebration of the Fulton County Sunday school association—a merry picnic which was highly enjoyed by all who were so fortunate as to be present.

Was it a success? Mr. J. C. Kimball answered that question when he said: "I believe this is the most highly successful of all our celebrations. There has been a larger attendance than ever before. Everything went off smoothly, and it was, I believe, the best Sunday school gathering which Georgia has seen."

The attendance was indeed good. Between fifty and sixty Sunday schools of Atlanta and other parts of the county, and it is estimated that fully two thousand people took part in the merry-making. Morning and afternoon the cars to the park were crowded with people and many went in their own carriages.

How happy the little ones were! There were among them children who see but little sunshine in their daily lives, and the way they danced around, breathed the fresh air, gave thanks, was enough to make every happy grown person who had devoted their time and energies to making the celebration a success.

## THE MORNING EXERCISES.

The main exposition building was selected as the place for the exercises of the day. Shortly after ten o'clock they were begun, by the hymn, "God Save the King," reading of Scripture by Rev. Mr. Sherrill and prayer by Rev. B. D. Smith. President Courtney then delivered the address of welcome, and with appropriate ceremonies, installed the new officers, who were:

President—Judge Howard Van Epps.  
 Treasurer—Tolbert Strickland.  
 Secretary—J. C. Kimball.  
 Chorister—J. A. Buchanan.

Vice-Presidents—First, Judge H. E. W. Palmer; second, W. F. Parkhurst; third, W. S. Bell; fourth, John H. Harwell; fifth, Thomas Moore; sixth, Seaborn Jones; seventh, A. C. Briscoe; eighth, F. B. Shepard; ninth, Allen J. Bell; tenth, Lewis Baker.

Executive Committee—John M. Green, chairman; A. C. Bruce, J. H. Fetzer, J. F. Beck, E. M. Roberts.

The installation was conducted in Mr. Courtney's usually happy manner.

JUDGE VAN EPPS' INAUGURAL was generally considered to be one of the best addresses of any kind ever heard in the south—one of the best of this gifted jurist and eloquent orator. He spoke of the importance and dignity of Sunday school work, and called upon the members of the association to give their churches, to give their sympathy and co-operation in their Sunday school work. It is an integral part of church work, and as such demands the heartiest support. He quoted Dr. Hoge's remark that the time was near at hand when a man with dignity and honor in his community in proportion to his endeavors to help his fellow-men.

## FROM OUR NOTEBOOK.

## Odds and Ends of News and Gossip Gathered by The Constitution Reporters.

*Work on Second Island.*—Mr. L. B. Wheeler, the well known architect at Greenville, on the left of several large hotels. The Tyler Island hotel is being built from his plans, and Mr. A. E. Eichberg, formerly of Atlanta, but now of Savannah, is associated with him in the work. Mr. Wheeler is engaged on plans for magnificent hotels in Shreveport and New Orleans, and has besides several handsome structures in progress for Mr. Kinley, the wealthy Atlanta capitalist.

*Of Interest to Soldiers.*—A great deal of interest is manifested among members of the local military companies and their friends over the Macon drill, and the indications point to a bright future outside the company. The drill, especially the drill program, be the big day. On Tuesday evening, the East Tennessee will run a special train to Macon and return. The train will leave Macon at 11 p. m., reaching Atlanta at 1:45 a. m.

*Distinguished Masons Here.*—Hon. John Davidson, of Augusta, the grand master of Masons of Georgia, is in the city and will be present at the lodge at West End tonight, where several candidates will be taken into the order and the degree of Master conferred. The lodge will also confer the degree of Master on Mr. Strong, of Savannah, who will also be present, and Mr. Kniglit Tempier, who will be present.

*A Book Appointment.*—In reference to the appointment of Governor Bullock as one of the government directors of the Union Pacific railway, Colonel Buck said yesterday that it was an excellent appointment. It is a fine position, and Governor Bullock is admirably fitted to fill it. I am satisfied that he will accept the place. No, it will not be necessary for him to leave the state, as he will be one of his duties to go over the road at stated intervals.

*The Governor's House Guard.*—Captain Milledge and about forty of his men will go into their summer encampment at Greenville on the 10th of June. The fort grounds between Greenville and New Holland have been secured and are admirably adapted to the purpose. The company will be gone about ten days. The company will be gone about ten days. The company will be gone about ten days. The company will be gone about ten days.

*The Chancellor Here.*—Chancellor Boegs, of the state university, arrived in the city last night. The reception by the alumni society to the chancellor will take place on Monday night at the Kimball, and it is expected that it will be a brilliant affair.

*Revels Served.*—The revels services which are being held at the city hall for the purpose of raising money for the relief of the poor, are being very successful, and the attendance is increasing nightly. Dr. Morrison is assisted in the service by Mr. Bradley, of Griffin, who is a most eloquent speaker.

*The Guard's New Caps.*—Last night the Gate City Guard held a full dress drill at their grounds, on Capitol avenue. Yesterday the company received their new white caps, and these, together with their new uniforms, were put on by the drill. The Guard now undoubtedly has the finest and most complete outfit of any company in the city, and their appearance at the Macon drill will doubtless create a sensation.

## A WRIT OF HABEAS CORPUS.

## That is What Will Probably Be Sworn Out Against Mr. Atwood.

"We are going to swear out a writ of habeas corpus and have Mr. Atwood released on tomorrow," said Mr. A. M. Gaskins, who is the attorney for the plaintiff in the case.

"Who is going to do it?" "Myself and Mr. Atwood. Do you know who he is?" "He is the man who was arrested yesterday, and who was taken to the city hall and who was taken to the city hall and who was taken to the city hall."

"I am unable to say, but I know that he went to the city hall and who was taken to the city hall and who was taken to the city hall and who was taken to the city hall."

"I am unable to say, but I know that he went to the city hall and who was taken to the city hall and who was taken to the city hall and who was taken to the city hall."

"I am unable to say, but I know that he went to the city hall and who was taken to the city hall and who was taken to the city hall and who was taken to the city hall."

"I am unable to say, but I know that he went to the city hall and who was taken to the city hall and who was taken to the city hall and who was taken to the city hall."

"I am unable to say, but I know that he went to the city hall and who was taken to the city hall and who was taken to the city hall and who was taken to the city hall."

"I am unable to say, but I know that he went to the city hall and who was taken to the city hall and who was taken to the city hall and who was taken to the city hall."

"I am unable to say, but I know that he went to the city hall and who was taken to the city hall and who was taken to the city hall and who was taken to the city hall."

"I am unable to say, but I know that he went to the city hall and who was taken to the city hall and who was taken to the city hall and who was taken to the city hall."

"I am unable to say, but I know that he went to the city hall and who was taken to the city hall and who was taken to the city hall and who was taken to the city hall."

## THEIR ANNUAL PICNIC.

## SUNDAY SCHOOL CHILDREN ENJOY A DAY IN THE WOODS.

Scene of the Association at Piedmont Park. The Exercises and the Contest—A Platform Falls, but Nobody Really Hurt—Notes of the Day.

A day in the woods. And a glorious day it was for the little ones who went out to Piedmont park yesterday.

It was the twenty-third annual celebration of the Fulton County Sunday school association—a merry picnic which was highly enjoyed by all who were so fortunate as to be present.

Was it a success? Mr. J. C. Kimball answered that question when he said: "I believe this is the most highly successful of all our celebrations. There has been a larger attendance than ever before. Everything went off smoothly, and it was, I believe, the best Sunday school gathering which Georgia has seen."

The attendance was indeed good. Between fifty and sixty Sunday schools of Atlanta and other parts of the county, and it is estimated that fully two thousand people took part in the merry-making. Morning and afternoon the cars to the park were crowded with people and many went in their own carriages.

How happy the little ones were! There were among them children who see but little sunshine in their daily lives, and the way they danced around, breathed the fresh air, gave thanks, was enough to make every happy grown person who had devoted their time and energies to making the celebration a success.

## THE MORNING EXERCISES.

The main exposition building was selected as the place for the exercises of the day. Shortly after ten o'clock they were begun, by the hymn, "God Save the King," reading of Scripture by Rev. Mr. Sherrill and prayer by Rev. B. D. Smith. President Courtney then delivered the address of welcome, and with appropriate ceremonies, installed the new officers, who were:

President—Judge Howard Van Epps.  
 Treasurer—Tolbert Strickland.  
 Secretary—J. C. Kimball.  
 Chorister—J. A. Buchanan.

Vice-Presidents—First, Judge H. E. W. Palmer; second, W. F. Parkhurst; third, W. S. Bell; fourth, John H. Harwell; fifth, Thomas Moore; sixth, Seaborn Jones; seventh, A. C. Briscoe; eighth, F. B. Shepard; ninth, Allen J. Bell; tenth, Lewis Baker.

Executive Committee—John M. Green, chairman; A. C. Bruce, J. H. Fetzer, J. F. Beck, E. M. Roberts.

The installation was conducted in Mr. Courtney's usually happy manner.

JUDGE VAN EPPS' INAUGURAL was generally considered to be one of the best addresses of any kind ever heard in the south—one of the best of this gifted jurist and eloquent orator. He spoke of the importance and dignity of Sunday school work, and called upon the members of the association to give their churches, to give their sympathy and co-operation in their Sunday school work. It is an integral part of church work, and as such demands the heartiest support. He quoted Dr. Hoge's remark that the time was near at hand when a man with dignity and honor in his community in proportion to his endeavors to help his fellow-men.

## THE VISITORS' REPORT.

THE BOARD TELL THE GOVERNOR  
ALL ABOUT THE UNIVERSITY.

The elaborate paper, full of spicy suggestions and recommendations, and the "What Next" of Money—Some of the Faculty Ought to Resign—Quarters That Are a Disgrace to Georgia—Too Much Lecturing in the Recitation Rooms—Young Soldiers' and Doctors' Certificates—Chancellor's Duties too Heavy.

"Half clad and half starved." That is the condition of the state university as described by the board of visitors who handed their report to the governor yesterday.

The report is very voluminous, and in parts quite spicy. It covers sixteen pages of big legal cap, is close written in a small hand, and concludes in these words:

"All of our investigations have ultimately led us to this conclusion: The university needs money, and we submit it to your excellency that our great state will defeat its own interests so long as it shall continue to keep the Alma Mater of many of its noblest citizens in her present half clad, half starved condition."

The report says in the outset that the board met in Athens May 9th and organized by electing Rev. J. M. Scott chairman and Rev. G. J. Orr secretary. After directing the attention of the governor to the act of '87 which gives the board the right of visitation in the question of the condition, management and general status, it is stated that the board have made a most thorough and impartial investigation of all affairs pertaining thereto.

It is also stated that the board are a unit in the suggestions and recommendations made.

WRITTEN EXAMINATIONS. The examination papers of the senior class are reported to be good, considered simply as examination papers, but the board say the examinations are not indicative of the real knowledge of the student, chiefly because of the manner in which they are prepared. The faculty announce to the students several days before the examination, and the students are given the time to prepare. The board say that a student who has done little work during the session can by "cramming" pass into the next higher class. Such methods of study, say the board, will do no practical use to the student and are really injurious to his mental powers.

TOO MUCH LECTURE. The board took a turn in the recitation rooms, and heard lectures to and recitations by the lower classes. Lectures seemed to be too prevalent in some of the departments, and "quizzing" the students too frequent. Some of the classes, by request of the board, were asked to make general questions on the subject under consideration by the professor in charge, and showed imperfect knowledge of the fundamental principles of the subject. The board attribute this deficiency to classroom training, and suggest that the board of trustees take the matter under careful consideration.

FITTING INTO THE FACULTY. The report criticizes some unnamed members of the faculty, as follows:

"We find that there are members of the faculty who are unable to infuse into their students any love for their departments, as was evidenced by the manner in which they conducted their classes. The students are not interested in the subject under consideration by the professor in charge, and who, to a great extent, unable to command that order and respect which should characterize the conduct of a student during recitations."

"We would recommend that these matters be carefully considered by the trustees and that if there are professors who are unable to command respect, or from any other cause, do not deserve the best interests of the state, they be removed from the faculty. Knowing from conversations with them that they are not qualified to perform the duties of a professor, we leave the matter to them for further action."

PILING IT ON THE CHANCELLOR. Of the arduous duties of the chancellor, the report says: "As chancellor of the university, he is expected to be the chief executive officer of the institution, and to carry out all matters pertaining thereto; to carry on, without the aid of a secretary, all correspondence; to attend the commencements of the medical, technological and branch colleges; to deliver a sermon or religious lecture once a week to the students, and to teach logic, mental or moral philosophy, political economy and parliamentary law."

"Your board would respectfully suggest that no living man can, with satisfaction to himself, perform all these duties, and that if imposed upon any one man, some must of necessity be neglected. Of course the business affairs of the university must not suffer, and nothing is more important than the welfare of your youth than a thorough and comprehensive knowledge of the branches heretofore taught by the chancellor."

"We notice, too, that though opportunities are offered for instruction in the classics, sciences and mechanics, there is no chair of history, either political or biblical. Indeed, this most important department, the crown jewel of one of the university's staunchest friends, is a vagrant outcast wandering here and there, taught by various members of the faculty, all of whose hands are already full of work."

"Your board, therefore, earnestly suggests that at least one new member be added to the faculty, who shall be a specialist in the department of constitutional and biblical history and who shall relieve the chancellor of a portion of his multifarious duties. This we regard as absolutely necessary. We are fully aware that the board of trustees have the university just as much as we, and we would urge the legislature to make an increase of appropriation for this special department."

WANTED—A TRAINED ELECTROTONIST. The board does not take to the idea that the professor of English and belles lettres should also teach elocution, but think that elocution should be a separate and distinct department, and because of its great importance, should have a trained and experienced elocutionist at its head. It was a source of regret to the board that they found no training in elocution at the university, and that the grant given by one of the professors to the law class.

THE MILITARY DEPARTMENT. The report testifies to the efficiency of the commandant and to the proficiency of the cadets in the field movements and manual of arms. The commandant, however, has no authority whatever over the cadets except that which he can personally exert, as there is no penalty whatever that he can place upon them for absenting themselves from drill.

It is recommended that an absence from drill be counted an absence from class, and that a student's class stand be made, to some extent, dependent upon the attention which he has given to this department, thus enabling the commandant to enforce attendance upon the drill. Another difficulty in enforcing attendance is the great ease with which students of excellent physical condition can procure certificates of inability to drill because of certain physical disorders from certain physicians.

At the beginning of the term there were 130 men "able to bear arms," but the number has been decreased to 70 by bona fide certificates. It is recommended that each student be required to deposit a small amount with the treasurer of the university upon the date of his entrance, and that the aggregate of these deposits be used to secure the services of a competent physician, whose duty shall be to attend all students in case of illness without further charge to the student, and from whom each cadet must secure a certificate of ill health before he is excused from any of his college duties.

The report says the military is furnished with old fashioned Springfield rifles, some of them being so ancient as to have flint locks, rendering it impossible to go through any drill except the manual. If all the students were required to drill there would be four companies. Let these companies, by special act, constitute a battalion, subject to the orders of the governor, the power of appointing the officers being lodged in the hands of the faculty or commandant, and which state will have the power to furnish suitable arms for their equipment. The board say that this plan is feasible and suggest that it be carried out.

THE DEPARTMENT OF GEOLOGY AND BIOLOGY are reported to be poorly equipped, and an appropriation is earnestly recommended for the use of these departments. The report has something to say about the practical usefulness of either study without experiments and illustrations.

THE GOOD BOYS. The conduct and general deportment of the students is praised. The report says: "The superior of the institution has been remarkably successful during the past year in exerting an influence for good over the young men. We have never seen a body of students for whose moral character and good behavior we have a higher respect, than that of those now at Georgia's university."

NEW ORLEANS AGAIN.  
THE LEADERS DEFEAT ATLANTA  
ONCE MORE.

Birmingham Wants a New Club—Memphis and Chattanooga Defeated—Other Games in Other Leagues.

NEW ORLEANS, La., May 16.—[Special.]—Today's game was witnessed by a small crowd and was of the character of a draw. Neither the absence of McGirk nor the retirement of Ward could prevent New Orleans from running away with the Atlanta. The latter were simply routed, and New Orleans was big as a house. The visitors sat down to work. Under their hands they tried to stop a hot liner hit by Pollock, and she pelted the last five innings. He was quite effective but some-thing, and with Hoenes' inability to throw, the Atlanta were unable to continue their attack. The features of the game were Dowie's third base work and Holland's short stop play with the way in which Schaefer covered first in McGirk's place.

**THE SECOND**  
**OF THE PROTESTANT**  
**DIOCESAN CONVENTION**

---

**The Bishop Delivers His Annual**  
**Message to the Convention**  
**Evening at St. Luke's Rector**  
**the Convention.**

---

**The second session of the**

pal diocesan convention was convening at 9 o'clock in the morning.

Most of the delegates were ladies, a large number of visitors and great many ladies.

More than usual interest in this meeting, as it was known, Beckwith would deliver his address.

The delivery of the annual address by the bishop was the first order of business at the convention. The address was the most elaborate and thoughtful ever made before the diocese and was listened to with profound interest.

In his discourse Bishop Beckwith touched upon all the different phases of the church's life, his recommendations as to the best course of prompt action by the church in the present field were in perfect harmony with the

The matter and the plan adopted session.

Bishop Beckwith's annual occupied an hour and a half and was listened to with the greatest of the most vital matters pertaining to the diocese were touched upon.

ARGUMENTS AND

After the bishop's address, the church constitution and the by-laws were read and discussed and the bishop then turned the matter over to the different committees. The entire remainder of the day, the convention taking a recess from 1 o'clock, p. m.

At the evening session the matter which came before the election of delegates to the convention, which assembled in city on the first Wednesday and which will remain in session and three weeks.

The election of the delegates to the convention involved a question of the meetings of the diocese for some years past. A move among some of the diocesan United States to change the Protestant Episcopal church, is expected to come up and the October meeting. A great to that convention will be in respective dioceses as to the they shall cast their ballots.

It is the question as to whether

Georgia delegates shall be caused, and has caused, the convention.

At its meeting in August a question arose, and though it was a warm one, went uninstigated, however of changing the name or not settled by the last general consequently the question dealt with by the present convention.

The moment the issue was night it created quite a stir some of the members declared would remain all night before admit to the instruction of the opposition was just as earnest the other side of the question. After a great deal of discussion as to whether or not the delegates general convention should be

of the name of the Protestant church was made the special meeting immediately after services.

THE DELEGATES ELECTED

After this had been disposed of for delegates was had, and election of the following:

Clertical Delegates—Rev. Chester, Reese, Barrett and S. Lay delegates—Messrs. M. Harrison and Charlton.

The next question being, selection of the place for the next meeting of the diocese of this year.

This also created quite a sensation. The discussion was an invitation extended by Col. Albany, for the convention to meet in that city. He had wished his invitation than Mr. on his feet with a resolution meeting be held in Millville

The following officers were members of the diocese, William H. Tamm, registrar, W. S. Rogers, treasurer of the diocese and H. S. Miller and Walker. The committee on the U. S. South, of Savannah, made a report containing a memorial to the bishop. The memorial was very favorable to the death of slavery. A resolution on the memorial was also adopted. The report was taken up and the resolutions discussed. The resolutions were appointed a diocesan convention in the midst of radical changes in the mission of the church. After

[illegible]

them, the delegates and reported for their respective districts.

The entertainment was a and the ladies of St. Luke's related on their success.

Many of the recognized as well as military circles say disease is most dangerous in are most liable to know how Dracosta, Atkinson and Pepp our leading medical school Surgeon General in the Rus speak of malaria as a dire chronic Bright's disease. The kept free from disease and of malaria; they must be u ing the blood, for the gallo through them every hour. localities recover from both fect of malaria by using Every person, in the spring either kidney disease or m
